SEASON SUMMARY:

Round 1 came around quick with the team thrown together and not many playing with each other before. But right from the first bounce they all showed some real talent and passion for the game. Over the course of the season we trained on the basics and really pushed hard to build a tight group. It became very evident that these boys and girls had passion for footy with them all turning up Sunday mornings ready to play and very keen to fill in for other teams.

For my first year as coach I couldn't have had a more supportive group of players and parents. We all learnt how to work together to pick up new skills and team work and as a team by the end of the season I believe the team as a whole had created a friendly and fun environment to help each player grow their love of footy. This was evident with how we welcomed new players to the team right through the season.

Special thanks to Mel for being an awesome manger and helping me survive my first season.

Thanks to Scott for being there as back manager and helping out at training And to all the parents for also putting your hands up when needed.
