#### Season Summary

As a team we had the bare minimum 10 players for the year . Whilst most weeks we struggled for numbers ( Thanks to all of the U/10 teams supporting each other when short), the desire and determination from all the boys was never questioned. T

heir growth as individuals shone through as they all relished the opportunity to lead the team, do the starting line -up and show leadership at training. As a team, opposition knew they were going to be challenged, all 10 were committed to the team first, rarely complaining about their role in that moment. To see the boys link together from one end to another via hand and foot outweighed any individual efforts. I have every confident that all can transition next year and do well.

Congratulations to Lachlan Connellan who represented the club at the GWS representative gala weekend, and thank you to Martin Tolar for Coaching.

Special mention to those parents that assisted with the training, Goal Umpiring and BBQ duties very much appreciated, it made for an enjoyable year having a good group of parents around.
